Report cards shouldn't take weeks. Marks shouldn't sit in spreadsheets. Insight shouldn't arrive after it's already too late.

Aspirant 360° closes the gap between a mark entered and a decision made — turning the daily work of running a school into a single, intelligent workflow that academics, administration and parents all trust.

Minutes, not weeks

Generate and publish board-ready report cards for an entire school in a single sitting.

Signal, not spreadsheets

Every mark entered instantly becomes a trend, a rank, and an early-warning signal.

One login, every role

Admins, principals, teachers and parents each see exactly what they need — nothing more.

Your data, your school

Every institution runs in its own secure, isolated space — never shared, never mixed.

THE OLD WAY

- ✗ Every class formatted and typed by hand, one report card at a time.
- ✗ Marks scattered across teachers' personal spreadsheets.
- ✗ A struggling student is noticed only when results are out.
- ✗ Parents call the school office for updates.

WITH ASPIRANT 360°

- ✓ Five board-ready report card formats, generated for the whole school at once.
- ✓ Bulk Excel import and validated entry, in one shared system.
- ✓ AI flags at-risk students the moment marks are entered.
- ✓ Parents get results and alerts on their phone, automatically.

See the gap close, live.

Book a personalized walkthrough on your own school's data.

CORE MODULES

One platform. Every academic workflow.

Eight connected modules, built to work together — not eight separate tools bolted onto one login screen.

Report Card Generation

Generate accurate, board-ready report cards for your entire school in minutes, not weeks.

Exams & Mark Management

Capture and import marks without spreadsheets piling up on individual teachers' laptops.

Approval Workflow

Every report card is reviewed and signed off by the class teacher and principal before a parent sees it.

Analytics & Insights

Spot a struggling student weeks before an exam — not after the results are published.

Notifications

Reach every parent instantly — email, SMS and push notifications, working together.

Mobile App

Give teachers and parents your school in their pocket — results, insights and updates on the go.

Role-Based Access

The right access for admins, principals, teachers and parents — and nothing more than that.

Your Data, Fully Isolated

Your school runs in its own secure, dedicated space — your data is never shared or mixed with any other school.

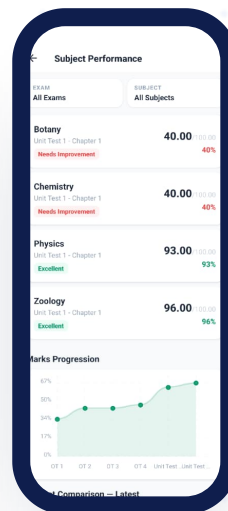

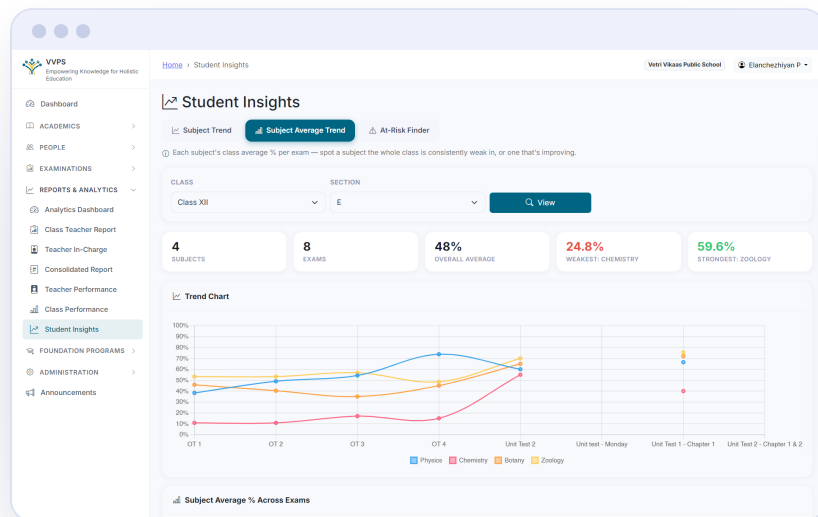

Want to see all eight, connected?

We'll walk through every module on your own class structure.

— AI-POWERED INTELLIGENCE

Every mark, every trend, every risk — read automatically.

From raw
marks to
a ranked
action list.

The moment a
mark is entered,
Aspirant 360°
turns it into a
subject trend, a
class comparison,
and — where it
matters — an early
warning, on web
and mobile alike.

AI Performance Insights

Subject averages, class comparisons and performance bands, refreshed the moment marks change.

AI Risk Detection

Automatically flags students falling behind, ranked by how urgently they need attention.

AI Smart Notifications

Results and alerts routed to the right parent, teacher or principal, on the right channel.

AI Executive Dashboard

Principals see school-wide performance, approvals and risk in one live view — no report requests.

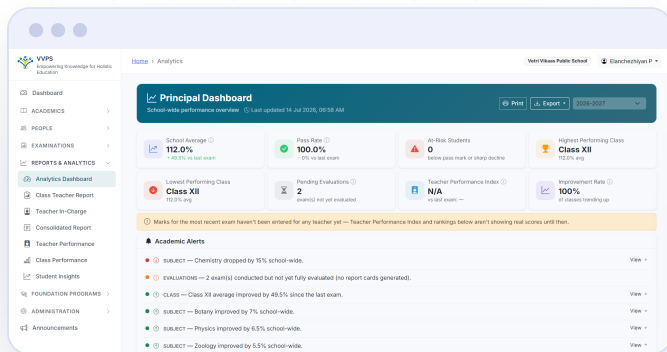

Curious what it flags in your own data?

Bring a class list — we'll show you the insights live.
